## **Press release**

January, 2010

### **Successful DIN EN ISO 9001:2008 Certification for Palm Paper**

Just four months after the start up of our new paper machine in King's Lynn (PM7) Palm Paper had its Quality Management system successfully audited according to ISO 9001:2008.

The extensive audit covered the complete production process and all supporting areas.

"After a very successful start-up of PM7 we now have the formal approval of our processes and Quality systems. This is extremely helpful to further improve the Quality of our Newsprint and the reliability of our services" commented Dr Wolfgang Palm.

Now all four paper mills in the Palm group have a common standard and are also capable of providing back-up production for each other.
